## Supports and Service :

Jewelry pouches are becoming a replacement for jewelry boxes, and most jewelry connoisseurs are on an outlook for cotton bags to store their precious and expensive jewelry pieces. Cardboard jewelry boxes are popular and beneficial in their own right but, most jewelry manufacturers and jewelry wearers have ditched the use of bulky cardboard boxes and instead, they prefer using velvet drawstring pouch bags to store their diamond studded rings and earrings. The following are the benefits of using jewelry pouches over jewelry boxes:

On the contrary, if you are a jewelry collector, storing multiple boxes of jewelry boxes would be a waste of space and it would minimize your space rather than maximizing it. Also, having stacks of jewelry boxes in your collection would look cluttered and unappealing to the eyes. Opting to jewelry pouches is rather space-friendly, and you can simply store your precious accessories in the velvet cases rather than displaying them for everyone to see.

## Application :

- 1. With the popularity of fashion jewelry industry, people pay more and more attention to jewelry packaging. Jewelry bags are perfect alternative of jewelry boxes. It's features lightweight and convenient, perfect for families travelling. Drawstring Jewelry pouches can be used for a variety of small gifts to prevent scratching and losing.
- 2. Jewelry bags generally have different fabric materials, such as velvet, faux suede, satin, cotton, canvas, leatherette, burlap, organza, polyester etc, which can be printed on the company LOGO or graphic to improve the quality of products. In the market, exquisite packaging means the high level of the product. It is necessary for you perpare jewelry bags to wrapping your jewelry or favors.
- 3. In terms of cost, the jewelry bag is much cheaper than the gift box. The cost of jewelry box about \$0.5-\$1.0, while the fabric jewelry bag only about 1/3 of it, so that means choose jewelry bag packaging can win lager profits than the box packaging in the same terms.
- 4. For Production process, the jewellery bag is very simple. Generally only cut whole fabric, sewing pouch, printing logo, inspection process. After this, can dispatch by air or by sea, So the lead time will be more faster than complicated box.
- 5. Jewelry bags are almost environmentally friendly and can be reused in daily life. And it doesn't take up as much space as a box. You may put pouch in drawer or corner when you not use it.
